After you see the home page of Chinamaxx, click on “Click to Enter” (Fig. 1).

To look for e-books already purchased by the Library and available to U-M users, simply input the book title (in simplified Chinese characters) into the search box and click on Search. You can also browse the purchased titles by clicking on the categories below the search box.

To look for e-books in the entire digital library (especially those titles not yet purchased by the library), first check the little box in front of 试读全库书 (Fig. 2), then input a search term such as title keywords, author names, and ISBN into the search box, and click on Search.
If a book is not purchased, you will only be able to view the table of contents and a dozen or so pages from the book. If you would like to recommend the book to the librarian for purchasing, click on the 推荐此书 (Fig. 3) and then send an e-mail to the Chinese Librarian (Jidong Yang). You should be able to read the entire book online in just a few days.
